

Aditya Shantaram Mirkute

Cloud Computing & DevOps Enthusiast | AWS | Azure | Data Analytics
amirkute36@gmail.com | +91 7517406231 | Kalyan, Maharashtra | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

BSc Information Technology graduate (CGPA: 9.7, April 2026) with hands-on experience in Microsoft Azure and AWS, actively building expertise in Cloud Infrastructure, DevOps, and CI/CD pipelines. Completed internships across Cloud Computing, Data Analytics, and Web Development. Currently enrolled in a DevOps course at DevOps Institute to advance skills in Docker, Kubernetes, Terraform, and GitHub Actions. Seeking a Cloud/DevOps role where I can apply and grow my cloud skills.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure (VMs, Storage, Deployment Pipelines), AWS (EC2, S3, IAM, CloudWatch)

DevOps & Tools: Docker, GitHub Actions, Terraform (Learning), Linux, Git, VS Code

Programming: Python, JavaScript, Node.js, Java, Bash

Data & Analytics: SQL, Excel, Power BI, Pandas, NumPy

Web Development: HTML, CSS, Bootstrap, JavaScript, Node.js

Databases: MySQL

Core Concepts: Cloud Architecture, IaaS/PaaS/SaaS, Scalability, CI/CD, Containerization, EDA

CERTIFICATIONS

Full Stack Web Development with AI Tools

Edunet Foundation | AICTE & EY | Credential ID: NG26_51103 | 2025–2026

Data Analytics — Skill India Certified | Grade A

Imarticus Learning | 120 Hours | 2026

PROFESSIONAL EXPERIENCE

Microsoft Cloud Intern | iFuture

2025 – 2026

- Provisioned and configured Azure resources — Virtual Machines, Storage Accounts, and Deployment Pipelines — across 3 real-world deployment exercises.
- Applied core cloud principles (scalability, high availability, disaster recovery, and security) to production-like Azure infrastructure setups.
- Managed Azure Portal navigation, resource groups, and deployment configurations, building practical cloud administration skills.
- Gained exposure to cloud cost management and Azure monitoring tools.

Data Analytics Intern | Imarticus Learning

2026

- Analyzed 5+ business datasets using Excel, SQL, Power BI, and Python to surface actionable insights for decision-making.
- Streamlined data cleaning workflows, reducing dataset inconsistencies by 40% across 3 core projects.
- Developed 4 interactive Power BI dashboards for real-time KPI monitoring, directly supporting stakeholder reporting.
- Automated weekly reporting using Python and SQL, reducing manual effort by 30%.

Web Development Intern | Vault of Codes

2024

- Built 3 responsive front-end interfaces using HTML, CSS, Bootstrap, and JavaScript with full cross-browser compatibility.
- Improved UI/UX consistency across 5 web pages, reducing layout issues by 60% and page load time by 20%.
- Met all project milestones on schedule with 100% on-time delivery.

PROJECTS

Cloud Infrastructure Deployment (Azure) | *Microsoft Azure, VM, Storage, Networking*

- Provisioned a multi-resource Azure environment including VMs, storage accounts, and virtual networks as part of cloud internship deployments.
- Configured access controls, managed resource groups, and applied best practices for cloud security and availability.

AWS Static Website Hosting on S3 | *AWS S3, IAM, CloudFront, Route 53*

- Hosted a static website on AWS S3 by creating a bucket, enabling static website hosting, and configuring bucket policies for public access.
- Set up IAM user with least-privilege permissions and configured CloudFront distribution to serve the site with HTTPS and low latency.

- Tested end-to-end deployment including custom error pages and CDN caching behavior.

CI/CD Pipeline Setup (Learning Project) | *GitHub Actions, Docker, Linux*

- Set up a basic CI/CD pipeline using GitHub Actions to automate build and test stages for a sample Node.js application.
- Containerized the application using Docker to ensure environment consistency across dev and staging.

Sales Data Analysis Dashboard | *Power BI, Excel, SQL*

- Built Power BI and Excel dashboards to visualize 12 months of sales data, reducing insight delivery time by 40%.

AI Trip Planner | *JavaScript, Bootstrap, REST APIs*

- Built a browser-based trip planning app using JavaScript and REST APIs, generating itineraries for 10+ destinations per search.

E-Commerce Website | *Node.js, HTML, CSS, MySQL*

- Developed a full-stack e-commerce platform with product catalog, cart, and secure checkout functionality.

EDUCATION

MSc Information Technology (Pursuing)

2026 – 2028

Mumbai University

BSc Information Technology

CGPA: 9.7 | April 2026

B. K. Birla Empowered Autonomous College, Kalyan

ACHIEVEMENTS & ACTIVITIES

- Maintained 9.7 CGPA in BSc IT — top performer in the program.
- Completed 3 internships across Cloud, Data Analytics, and Web Development within 2 years of study.
- Delivered 7+ projects spanning cloud infrastructure, data analytics, and full-stack development.
- Introduced 20+ school students to programming and internet safety through the CEP Teaching Project at B. K. Birla College.
- Event Volunteer — Birlostav (2024–2026): Coordinated logistics for the college's annual technical and cultural festival.
